

# The Elba Clipper

VOLUME 71

ELBA, ALABAMA 36324, THURSDAY NOVEMBER 7, 1968

NUMBER 16

**FTA OFFICERS** . . . At the annual meeting of the Third District Future Teachers of America at Troy State University on Friday, Jacquie Sue Morris, left, Dothan High School, was elected president for the next year and Jumell Barker, Zion Chapel High School, was elected secretary and treasurer. Not shown is Betty Palmer, Slocum, vice president.

## ACCIDENT LATE SUNDAY HURTS WALKING WOMAN

An accident at 6:15 p.m. Sunday 14 miles north of Elba on Highway 167 resulted in the injury of one woman, Mrs. Mildred Archie, Rt. 2, New Brockton. She was injured when struck by a car driven by John Paul Currie of Enterprise. According to Highway Patrol reports, the accident happened when Currie was driving south meeting a car when he suddenly saw a woman in the road. He swerved to the left and the woman hit the headlight on the right side of the car and traveled down the side of the car and was thrown onto the pavement. She suffered severe lacerations of the scalp and possible fracture of the left arm. She was taken to a Troy hospital by the Elba Rescue squad.

No charges were filed by the highway patrol.

**HALLOWEEN QUEEN AND KING** . . . from the Elementary School are pictured above. They are queen Cynthia Leigh Whitley, daughter of Mr. and Mrs. Charles H. Whitley, and the king is David Allen King, son of Mr. and Mrs. John R. King.

## Post Office To Close All Day Monday

There will be no window service or delivery service on Monday, November 11, Veterans Day. Mail will be received and dispatched on holiday schedule. Box section mail will be in boxes by 9:00 a.m. Mail deposited in drop box inside post office will be dispatched if deposited by 5:15 p.m. After 5:15 p.m., deposited mail in box in front of office for pick up by star route at 9:45 p.m.

## MANN REPORTS ON ALABAMA TRAFFIC ACCIDENTS

Traffic Accidents on Alabama highways brought death to 69 people during October, according to Colonel Floyd H. Mann, Director, Department of Public Safety.

The ten month toll now stands at 696 compared to 645 for the same period last year. The state, as the figures show, has experienced a considerable increase in deaths, but if we can keep the death count low for the next two months, we can still end the year with a decrease in fatalities over last year.

**RETIREES** . . . Mr. J. D. Hudson receives a Dorsey watch in Personal Director Olen Bailey. Hudson has been with Dorsey since 1938 and began working for 10¢ an hour. In presenting the watch Bailey said, "J. D., you have been a long and trusted employee of this company and we are very happy to present you with this watch."

## LEGION TO MEET

The Elba American Legion will observe the 50th anniversary of the American Legion this Thursday night in a meeting at the Recreation building at the City Pool. Guest speaker will be the State Commander, Mr. Andrew J. Cooper of Troy.

Others attending this special meeting will be the Southern Area Commander, District Commander, District Vice Commander and others.

Commander Maxwell Reeves urges all members to attend and bring their family.

## Mayor Signs Proclamation

Mayor Jack Brunson has signed a proclamation designating Monday, November 11, as Veterans Day in Elba and calls upon all the people of Elba to observe the day also. "It commemorates the service of our war Veterans and shows our continued dedication to the cause of world peace and the establishment of a world community in which every nation can follow its own course without fear of its neighbors."

Brunson also directed that the American Flag be displayed over all public buildings.

## City Council Holds Regular Meeting

The Elba City Council held the longest meeting on their record, not adjourning until 12:30 a.m. Tuesday morning. All members were present except Councilman Donnie Morrow.

The council first heard a request from Legionnaire Maxwell Reeves that the Mayor and Council attend the Thursday night Legion meeting and hear a 50th Anniversary talk by the State Commander.

The group then heard a complaint on the condition of the Old Samson Road near the City Pool. Mayor Brunson stated that a survey was in progress and plans being made to resurface those streets destroyed by the sewer project and possibly pave some unpaved streets in town.

The council took under advisement a request from a private individual for the city to donate one half of the right-of-way for a short road down beside the airport and running off Larkins Road.

The City Council heard a complaint on the trash and garbage in front of Morris - McCollough Grocery. The council instructed the City Clerk to call this to the attention of the owners.

Councilman Cook was asked to check with the State Highway Department on the possibility of leaving the piers from the old Whitewater Bridge after the new bridge is completed. These piers could be used to support water and sewer lines crossing the creek from Smith Avenue.

The Council discussed the problem of getting a sewer line across the highway to the office of International Paper Co. Mayor Brunson stated that this would cost several hundred dollars it is necessary to drill under the highway and put in heavy duty pipe. No action was taken on this until alternate solutions can be studied.

Mayor Brunson reported that he was waiting on an opinion from the City Attorney as to the liability for resurfacing the city streets where the sewer lines were installed. He further stated that the City had a \$16,000 balance with the State Highway Department from the gas tax that must be used within two years of the date it was collected and must be paid on the streets. This fund increases at about \$1200 per month.

The council voted to cooperate with the Azalea Garden Club on decorating for Christmas, maintaining the hospital grounds and the roses at Evergreen Cemetery.

The Council approved the closing of the City Hall office on Monday, November 11th for Veterans Day, as has been the custom in the past.

City Clerk Winston announced to the group that Creel and Sharpless, he now had in hand all Sharpless passed for three notes on the Elba Industrial Park following issuing a check for \$3030.20 to Creel also ran one in from The Peoples Bank. The industrial park is now free of debt. The money was transferred to the city toe was true as he kicked from the Water and Electric Board.

The Mayor read the bills and entertained a motion to pay them as the money became available. The bills totaled \$5861.40, some of which had been held over due to the constant shortage of money.

Councilman Charles Jacobs was appointed to serve on the Board of Director of the Organized Community Action Program, Area

23, and Mr. Melvin Stroud was re-appointed as Building Inspector for the City of Elba. City Clerk Harris Winston was instructed to let sure Stroud knew when any building permit was issued so that he could properly perform his duties.

Mayor Brunson announced that there were two vacancies on the Housing Authority but no action was taken. Several members of

## OPP CO-OP SUSPENDED

Farmers Cooperative Market, Inc., a livestock auction market in Opp, has been suspended as a registered market agency for violating weighing requirements of the Packers and Stockyards Act, the U. S. Department of Agriculture said.

USDA Judicial Officer Thomas J. Flavin suspended the firm's registration for 20 days, beginning Nov. 12, 1968. It is not allowed to operate as a market agency during that time.

Farmers Cooperative Market, Inc., was ordered to cease and desist from:

(1) Weighing livestock at other than correct weights;

(2) Issuing scale tickets to livestock sellers showing incorrect weights;

(3) Paying sellers on the basis of the incorrect

the council requested time to study the entire Housing Authority members' duties before making an appointment.

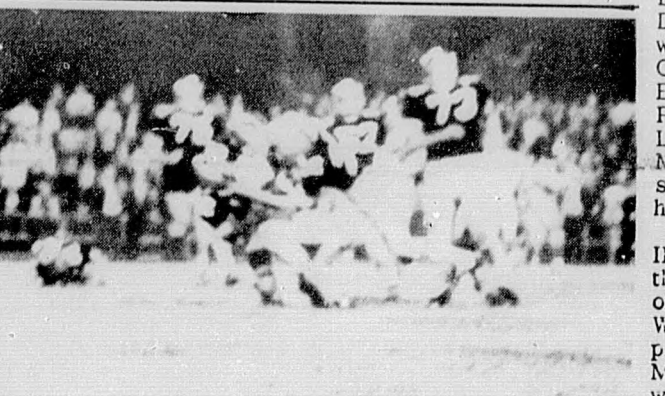

The council meeting concluded with a two hour discussion of the problems concerned with establishing a City Jail. This is a pressing problem and individual councilmen were assigned to study various parts of the problem and report with suggestions, weights;

(4) Failing to operated its scales according to regulations under the Act; and

(5) Failing to show buyers' names on sellers' accounts of sale.

The cease and desist order—like a permanent injunction—is used to insure compliance with the Act.

The firm was also directed to keep records fully showing all transactions involved in its business. In answering the administrative complaint filed by USDA's Packers and Stockyards Administration, the firm admitted USDA jurisdiction. It denied the other allegations and requested an oral hearing. The hearing was held before a USDA Hearing Examiner in Andalusia, on February 19, 1968.

**TACKLE 'EM HARD** was the word last Friday night as the Tigers defeated the Andy Bulldogs 34-0. Here Billy Bimbo leads the attack as the Elba Tigers bury the Andy ball carrier.

## Elba Rolls Over Andy

The Elba Tigers rolled over the Andy Bulldogs on an easy 34-0 victory over the Andalusia Bulldogs Friday night. The Elba Tigers travel to Troy Friday night to play the Bulldogs with a 4-4 record in the thus far this season. The Tigers gave the fans a preview of things to come on the second play of the game when Sharpless passed to Donnie Holley for a 60 yard TD. The Tigers had opened up with an unusual play - they passed, Elba went on and scored three more touchdowns in the second quarter and another in the final quarter while holding the Andalusia team to less than fifty yards both rushing and kicking.

Scoring for Elba were Holley, Smith, Martin, Creel and Sharpless. The Tigers also ran for three touchdowns in the second quarter and another in the final quarter while holding the Andalusia team to less than fifty yards both rushing and kicking.

The Tigers unleashed a running game also. This saw running backs Brice and Paul while substituting for starter Sharpless. Johnny Martin's game as he repeatedly drove for extra yardage even with two and three defenders handing to him. The entire Elba team was playing football to win.

The line fired off well and the backs were ever alert. The Elba Tigers travel to Troy Friday night to play the Bulldogs with a 4-4 record in the thus far this season. The Tigers gave the fans a preview of things to come on the second play of the game when Sharpless passed to Donnie Holley for a 60 yard TD. Scoring for Elba were Holley, Smith, Martin, Creel and Sharpless. The Tigers also ran for three touchdowns in the second quarter and another in the final quarter while holding the Andalusia team to less than fifty yards both rushing and kicking.

The Tigers unleashed a running game also. This saw running backs Brice and Paul while substituting for starter Sharpless. Johnny Martin's game as he repeatedly drove for extra yardage even with two and three defenders handing to him. The entire Elba team was playing football to win.

**RICHARD M. NIXON** has apparently captured the prize he was seeking as he accumulated a majority of the electoral votes in Tuesday's Presidential election.

## Posthumous Awards Given To Widow

Mrs. Franklin J. Hiner of Elba, recently received the Distinguished Flying Cross with one Oak Leaf Cluster, Bronze Star Medal and Purple Heart and 25 Oak Leaf Clusters to the Air Medal, which were presented posthumously to her husband, Captain Hiner.

Major John M. Wallace III, a flight commander in the Contact Flight Division of the Department of Rotary Wing Training, Ft. Rucker, presented the medals to Mrs. Hiner, whose husband was killed June 25, 1968 in Vietnam. CPT Hiner's mother, Mrs. Anna Hiner (2879 Monroe Blvd., Ogden, Utah, also was present at the ceremony.

While commander of a 10-ship formation on a combat assault northwest of Dong Tam, Vietnam, on March 1, 1968, CPT Hiner's ship came under intense enemy fire which wounded his pilot, according to the citation accompanying the Distinguished Flying Cross.

CPT Hiner was cited for landing the helicopter in a relatively secure area after finding that the aircraft had no hydraulics, no response from the tail rotor and no oil pressure. CPT Hiner's flying skill

and calm, rapid response averted what could have been a disastrous crash, saving the lives of the combat ready troops aboard his helicopter as well as preventing further damage to the craft, the citation stated.

On March 8 CPT Hiner distinguished himself while serving with the 240th Assault Helicopter Company as commander of a UH-1 helicopter on a combat assault northeast of My Tho, Vietnam, according to the citation accompanying the Distinguished Flying Cross. On a final approach to a landing zone, his aircraft came under intense enemy automatic weapons fire, which wounded CPT Hiner and damaged his ship with approximately 30 enemy rounds, the citation continued.

Despite his wound, CPT Hiner landed to unload his troops and, realizing his helicopter was too badly damaged to return to a secure airfield, he safely landed in a rice paddy some 1,000 meters east of the "hot" landing zone, the citation said. He then organized the crew into a defensive perimeter and CPT Hiner's flying skill

## Music Lovers To Present Play

Many Moons, a play by kingdom under the sea," man, Jamieson Thurber, will be and all the castles, kings, and princesses that make up the fantasy of a child's play re-creates "A shining dreams, according to fact path . . . . leading to the city director, Jack Solo-

The play is being presented by the Troy Playmakers and is sponsored by the Elba Music Lovers Club.

LUCILE K. WOODHAM MCRAE  
\*\*\*\*\*

I WOULDN'T BE truthful if I didn't admit that I am delighted with the results of the election Tuesday. My main interest was that Richard Nixon be elected president. Bill Dickinson be re-elected to Congress.

As you all know Dickinson was elected with an even larger vote than two years ago when Bob Whaley was then attempting to take over his position in Congress, as this year.

The election for president kept us dangling in the air until mid-morning Wednesday. It was something like a football game that is hanging every moment as if our team would win, or as easily, lose.

I stayed with the reports until nearly day-break Tuesday night. The television remained on until the electric power cut-off for about 10 minutes for some unknown reason, but then back on and is still on at the office.

Nixon and Humphrey ended up with a 43 percent of the popular vote but with Nixon ahead in that vote as well as

with electoral vote. George Wallace may end up with less than 14 percent of the national vote which is bound to be very disappointing to him and his supporters. Even in Alabama his vote was approximately 65 percent which could also be disappointing. He was expected to take about 15 to 20 percent of the Alabama vote. It is believed that he lost in his own state during the past several weeks.

More money has been spent on the election for president this time than ever in history. George Wallace's campaign was the most expensive compared with the results he accomplished.

PM NOT SMART, but I know that if Richard Nixon was elected president the stock market would make a surge upward and I also know that if George Wallace should be elected or the election thrown into the House of Representatives, it would make a sudden and drastic drop. Within less than 30 minutes after it was announced Wednesday morning that Nixon was elected the stock market went up and continued to show promise of climbing.

I am real happy over the outcome of the election. I feel that we have some hopes for our nation. I realize that Nixon is going to have a very rough four years. Regardless of who would have been elected it would be hard work. I have confidence that Richard Nixon can handle the problems better than the other two candidates could have.

I feel that Richard Nixon will actually be a sacrifice to the nation, but he will have done the world a great service by doing so. He will be blamed for things he is not in the least responsible for but I have confidence that he can handle the problems of the world better than anyone else.

He is qualified. He has made a study of our problems and he will do all he can to correct them and to lead us out of the wilderness.

I have confidence in Richard Nixon's ability.

NOW THAT the election is over I can say how I feel about Hubert Humphrey. I like him, and he did nothing to make me like him less during the night of the returns. His speech Wednesday morning was very good. He pledged his support to the new president-elect and he was somewhat relieved and that he was not unhappy with the election.

I have an idea that he actually felt good about the vote he received. In the beginning it looked as if he would be the low man, but he surprised forward

during the last couple of weeks. He made a good fight and so far as I could see he made a fairly clean fight for the office of president.

HUMPHREY had one supporter in our family. One of the children, 3 years of age, Sonya, was in favor of Humphrey regardless of her parents, her grandmother, her classmates and all her friends. She was the only one in her class who dared to favor Humphrey but she did and refused to be swayed in favor of George Wallace in spite of pressure. Apparently she is going to prove her "skin" to her grandma. Issues and principal are at stake with me and regardless of pressure I stand for what I think is right. But it can be heartbreaking many times and it can cause many restless nights. But I wouldn't have Sonya change. I support her in standing on her own judgement.

WITH THE results of Tuesday's election giving George Wallace such a poor showing I don't think he will be a threat for president in 1972. The polls gave him a higher percentage than he received. They got 14, and that is dropping. George Wallace will have to try to return and be satisfied with being a state power if he continues in politics but it is doubtful now if he can continue to hold even that since Tuesday, November 5. He will have to do some changing his type of politics if he continues to have influence. Emotionalism will not stand up forever.

George Wallace claims that he will never be a candidate for any public office in Alabama again - that he will never run for governor of Alabama again. But many are wondering. Many do not believe he means it. Time will tell.

BUT NOW that the election is over let us get back to regular routine and start being friends again. Letting politics interfere with friendship is just about the most ridiculous thing we can do. When it is all over we will all continue to be here together, while the politician will have vanished from the scene. We will be left to try to make amends for our differences while the politician who was the cause of it all couldn't care less. Now instead of "hate" let us pray together that our country will reunite for freedom, for peace, for happiness.

MRS. MARTIN FUNERAL SERVICES HELD IN ELBA, OCTOBER 30

Mrs. Lois Carnley Martin, age 48, passed away Tuesday morning, October 29, in an Elba, Alabama hospital. Mr. Martin was a former resident of Florida and has many friends and relatives in this area.

Survivors are the husband, Jesse Martin, of Elba; two sisters, Mrs. Vonnie Martin of Florida and Mrs. Clemmie Chamberlain of DeFuniak Springs; one brother, H. G. Carnley, of DeFuniak Springs; and several nieces and nephews. Funeral services were held in Elba, Wednesday, October 30, at 2:30 in the afternoon from the Westside Baptist Church with the Reverend Floyd Lisenby and Elmer By Watson officiating. Burial was in the Cool Springs Cemetery near Opp with Hayes Funeral Home directing.

Mrs. Martin was a niece to Mrs. B. C. Maloy of Florida.

## Some Disabled Widows Are Losing Money

Some disabled widows in this area may be losing money because they have not filed a claim for monthly social security payments based on their husbands' earnings.

## Rucker Branch Growing

The Troy State University Fort Rucker Branch has become, in a very real sense, an evening college without a campus. Approximately 800 individuals are enrolled in 42 different undergraduate and graduate classes. The students are taking courses for self-improvement, credits for transfer to their respective colleges and universities, and a considerable number of them are completing requirements for B.S. or M.S. degrees. One hundred twenty-nine of the 800 are graduate students completing requirements for the M.S. degree in Education. A full-time Resident Director, assisted by a registrar, clerical staff and a full-time faculty is charged with mapping this off-campus university program. He works with the President, Vice-President, Director of Special Services, and department heads of the parent institution to develop meaningful college programs to meet the needs of adults at Fort Rucker and in the surrounding area.

## Drive With Care

NOVEMBER 1968

NOTHING IS COMMON ABOUT A COLD. Every cold is particular to the individual who has it and the only thing that is common is the miserable and uncomfortable feeling it brings.

COLDS START IN MANY PLACES. It is just as likely to begin in the throat, nose, ears, chest or eyes and work its way from one area to another causing at each stage increased discomfort.

START TO FIGHT IT QUICKLY. Once a cold latches on it is more difficult to get rid of. At the slightest indication you should try to knock it out. An extra intake of fruit juice or Vitamin C tablets as a supplement can help in resisting a cold as well as a little extra rest.

HAVE A COLD FIGHTING KIT. We can help you select the basic essentials—Cold capsules, a decongestant, lozenges and Vitamin C tablets. When these are on hand you are prepared to fight the cold even if it starts in the middle of the night. If you have a continuous fever, or cold symptoms persist, visit your physician.

## BRAINSTORMS

With Ferrin Cox

We would like to be in the dream world of reporting and talking only of the nicer things that happens, such as beating Andy 34-0, but we all know that is just a dream world.

An incident happened during the Council meeting Monday night that has caused us much soul searching. We experienced a mixture of surprise, disappointment, temper and pride as a representative of this newspaper, and a degree of insult as a citizen of Elba at some of the off-the-cuff statements of several members of the local governing body following the seemingly harmless question of one member to us, "Is it necessary to report all the actions of the City Council in the Elba Clipper?" It took us until well into the day Tuesday to collect our thoughts enough to control these emotions and justify the statements which we are sure were made without proper forethought. We feel that we now have a deeper understanding of these men, who we admire, respect and consider our firm friends. They are as human as the rest of us and as such have a strong dislike for personal criticism for some action they have taken or will take and have a tendency to bite anyone within reach, much as a normally gentle pet with his foot caught in a barbed wire fence. We are a little awed and/or flattered to see the impact of a short paragraph in your local newspaper. We have always believed in the "power of the press" but this also frightens us when we think of the bid effect a person or group more misguided than ourselves could have with the same small space.

The Elba Tigers have moved up into eighth place in the state 3-A standing this week and with a win over the mighty Troy eleven Friday, will definitely be one of the top five teams in Alabama by anyone's standards. You got 'em in the top four for a crack at the championship but the odd makers say that at least one of the other four teams is bound to lose and that would put the winning Tigers into the play-offs.

Minister Raymond Elliott, president of the Elba PTA, is not overly fond of the song "Harper Valley PTA" and his delightful five year old son has surely gotten wind of this fact. He reportedly told friends that his father was going to ride in the Homecoming Parade with the secretary of the Harper Valley PTA and that she was to wear a mini-skirt!

## Mulberry Heights Honors Teacher

The Mulberry Heights Teachers Association honored Mrs. Virginia McGowan, October 24, 1968, at the Mulberry Heights Auditorium for the many years of service she has rendered to the teaching profession and to the community at large.

The affair brought out very vividly the instruction, influence and helpfulness she has shown throughout her career. Mr. W. N. Patton, Jr., Principal of Mulberry Heights, gave the main highlights of this teacher's activities while a member of the school's faculty. Expressions of gratitude came from the superintendent, churches, organizations and schools of the county. Songs by former students were sung in her honor and the climax of the affair was the memories of Mrs. McGowan from her high school principal, Mr. Tindell, Gifts were presented from the churches and organizations and the affair was concluded with a social get-together in the home of the Economics Department.

The stage was a scene of red roses and greenery with the honored guest surrounded by her many friends.

Mrs. McGowan's final statement well expressed her sincere appreciation for the affair, but made it quite clear that while her service as a teacher in the school system has terminated, her service in the community will continue.

## Research Brings Hopeful Leads; New Weapons Challenge Cancer

One thing the American Cancer Society has learned in its many years of fighting cancer is that cancer's best friend is ignorance. Conversely, it is knowledge that will one day defeat cancer.

Some recent highlights in cancer research: one special group of chemical agents, the SH-inhibitors, have shown particular promise. They may have the remarkable ability of attacking cancerous cells more vigorously than they do normal ones. This characteristic is vital to chemotherapy, since it enables the physician to kill off the diseased cells, while doing a minimum of damage to its healthy counterpart.

Also encouraging have been recent developments in "chemoimmunotherapy" using more than one chemical at

a time. The past year witnessed, for example, what has been described as a truly effective therapy for adult leukemia, accomplished via "POMI." The word is formed of letters in the names of the four chemical agents used: Prednisone, Onosin, Methotrexate, and 6-mercaptopurine. Although this treatment does not provide a true cure, it does produce regression of the disease, and marks a definite advance against adult leukemia.

The American Cancer Society continues its long tradition of supporting research in a number of directions, such as the chemical reactions that take place within the individual cells, the behavior of DNA and RNA, substances which direct cell growth in both normal and cancerous cells; the chemical and physical interrelationships between a tumor and the organism within which it grows; and many other fields as well.

VIHUS STUDY

In the study of viruses, we have learned that a virus causing cancer in hamsters is resistant to the acids of the body of another, unrelated, virus. "Viruses" may even be formed. Virus heredity in certain tumor cells have been detected in certain tumor cells even when the virus itself was missing—a fact which may explain why so few cancers have time to grow in the body of the host.

POTATOES

To shorten cooking time of baked potatoes hold them in the oven for four minutes before placing them in the oven.

EGGS

Eggs are so near perfection as a source of protein that scientist often use them as the standard to measure protein value in other foods.

FARM TO CITY SHIFT

Alabama farms have lost 20,000 residents in the last eight years. This means that an average of 2,500 persons a year left Alabama farms to move to cities or non-farm rural areas.

## MR. BROWN BEATS THE HABIT

It's not too late to stop smoking cigarettes as Steve Brown found out after he woke up one morning, bleary-eyed and choked up. After a few tentative coughs to clear his chest he lit his first cigarette. He inhaled deeply.

The violent coughing spell shook him. He turned purple and nearly choked. A horrible thought struck him. "Do I have to quit smoking?"

TWO PAKS

He squirmed. He had smoked two packs a day since he was 17. And here he was wheezing and coughing. His heart beat rapidly. His head was spinning. Remembering the American Cancer Society's advice on regular checkups, Steve went to see his doctor. The verdict was short and swift. A doctor said, "You've been lucky so far."

"What are some of these diseases?" Steve asked. "Cancer, emphysema, heart and circulatory diseases," the doctor replied.

"Can't the lung kills about 30,000 Americans each year?" The regular cigarette smoker runs a risk of death from lung cancer ten times greater than that for his non-smoking counterpart. Even those who have smoked for years, however, can still do something: quit, and improve their chances of not getting lung cancer."

LONG TOO LATE

"Lung cancer is not only cancer, related to cigarette smoking. Death rates among smokers are rising. Even the cancer of the larynx, esophagus and mouth that for non-smokers is rarely too late to stop smoking cigarettes," he added.

Steve, supported by the American Cancer Society, found that the body has a great capacity to heal itself.

## IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

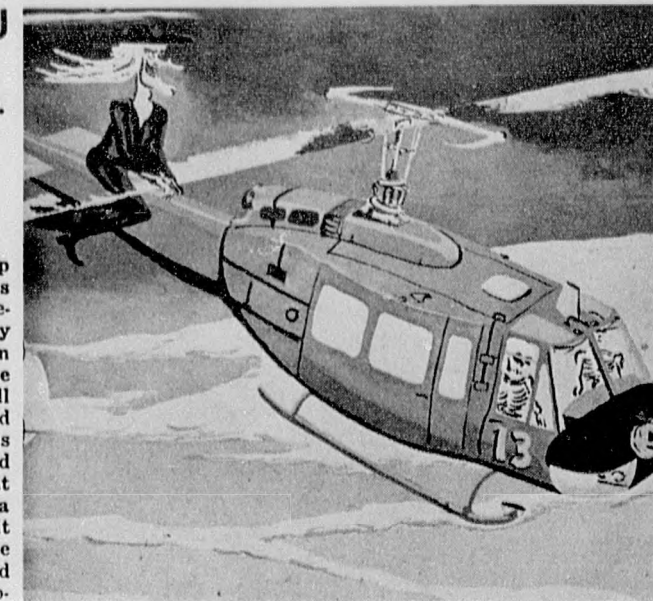

The Disaster of Government Help

ONLY a few decades ago, help from government was considered degrading. Only starvation would drive one to accept it. All this has changed and the belief is now widespread that government owes everyone a living, that it costs no one anything and there is no moral or other reason why one should not accept all that is available. The pressure for more and more government aid has become well-nigh irresistible. No nation can long survive whose people look to government for sustenance. People must work in order to live. Any government which seriously attempts to support its citizens will fail and be overthrown.

The National Advisory Commission on Civil Disorders is recommending a course of action that leads straight into this disaster. It is a course of action which would lead to the destruction of the United States. It is a course of action which would lead to the destruction of the United States. It is a course of action which would lead to the destruction of the United States.

Self-help, education and character are the only ways to relieve poverty and promote well-being. Subsidies tend to retard the individual's ability to help himself. If government relieves him of the necessity of so doing, he will have little incentive to study hard and to seek to acquire skills. If he can live quite comfortably without effort, on the dole, character development can hardly take place if one is inclined to violate the moral law by living not from the sweat of his own brow but from the labor of others.

Howard Kershner's Commentary, "Disaster of Government Help," is published in THE ELBA CLIPPER, 505 1/2 St. Street, Los Angeles, California 90005.

PHOTOGRAPHIC PROOF . . . Now who dares to say that witches and goblins don't come out on Halloween? This up-to-date old girl was snapped at a low hover late last Thursday night over the family housing area at Ft. Rucker. She and the helicopter are the work of Chief Warrant Officer, W-2, Greg Swint of Detroit, Mich., an instructor pilot in the Employment Division of the Department of Tactics, who spent some 7 1/2 hours concocting the Halloween fantasy. The four-by-eight foot picture was created at the request of CW2 Swint's neighbor, an instructor pilot in the Department of Rotary Wing Training. The department used it for decorations at a Halloween party. (U.S. ARMY PHOTO)

By Tom Casaday, County Extension Chairman

**SOIL FERTILITY**  
Walter Sowell, soils specialist at Auburn University, will meet with us on Thursday of this week to discuss the importance of soil fertility and liming. As many of you remember, Dr. Sowell worked in Coffee County for a number of years in the early 50's. It is always a pleasure to have him back with us.

We will be meeting with the agri-business dealers in the county to discuss information on soil fertility. The main purpose of this meeting is to provide an opportunity for all of us who are involved in farming to be telling the same story on ways and means to build our agriculture.

**SPECIAL SAUCE**  
Earl F. Kenamer, our fish and wildlife specialist at Auburn, gave a program recently on ways to make doves and venison taste better. He passed along the following basic barbecue sauce recipe which I thought some of you might be interested in.

**Basic Barbecue Sauce**  
5-7 cloves garlic - peel and chop  
2 onions - finely chopped  
1 cup olive or peanut oil  
2 teaspoons coarse salt

Heat oil in skillet, add garlic and onions. Let onions and garlic wilt. Blend thoroughly.

Add:  
1 cup tomato sauce or strained canned tomatoes  
1 cup Worcestershire sauce  
1 cup red wine vinegar  
1/2 cup brown sugar or honey  
1 teaspoon rosemary or rosemary seasoning powder  
1/4 cup chopped parsley  
1/2 teaspoon thyme  
3 teaspoons chopped green pepper

Bring to boil, lower heat and simmer 20 minutes. Taste for seasoning. Strain sauce if you wish or put through electric blender for smoother mixture.

Use hot or cold with meat or fish. Baste with when grilling. Serve with finished dish.

**CORN RECOGNITION DINNER**  
Plans are just about complete for the Coffee County and Wiregrass 100 Bushel Recognition dinner. The awards program will be held at the Abbeville Country Club this year. Those attending from Coffee County include Chairman L. B. McCall and Mrs. McCall, Mr. and Mrs. A. W. Wilson of Route One, Jack, Joe Wilson, Route one, Jack, Mr. and Mrs. Charles Hayes of Elba, Kenneth Howell of Route One, Chancellor, Bill Reynolds of Route One, Kinston, Mr. and Mrs. Paul Wise of Route One, Kinston, Mr. and Mrs. Perry Moore of Route 3, New Brockton and others.

**GARDENING HELP**  
The new ASOS program for next year will include help for low income families in gardening. Funds are being provided to aid in fencing gardens and also in running water lines to garden areas where irrigation is desired. According to E. L. Dean of New Brockton, the cost of fencing and watering will be at least a quarter of an acre in size and cannot exceed 2 acres.

Everybody in the county of course, can qualify for this help where about 80 percent of the cost of fencing and watering will be provided.

**IRRIGATION**  
Several farmers are showing an interest in irrigating their crops. G. B. Henderson of the Maceo-County Community wants to provide water to irrigate tomatoes. Jack Heath of the Asbury Community is interested in irrigating several truck crops.

Both of these farmers will rely on ponds to provide irrigation water. Where a good supply of water is available, a pond may be the answer. Otherwise, a deep well is needed.

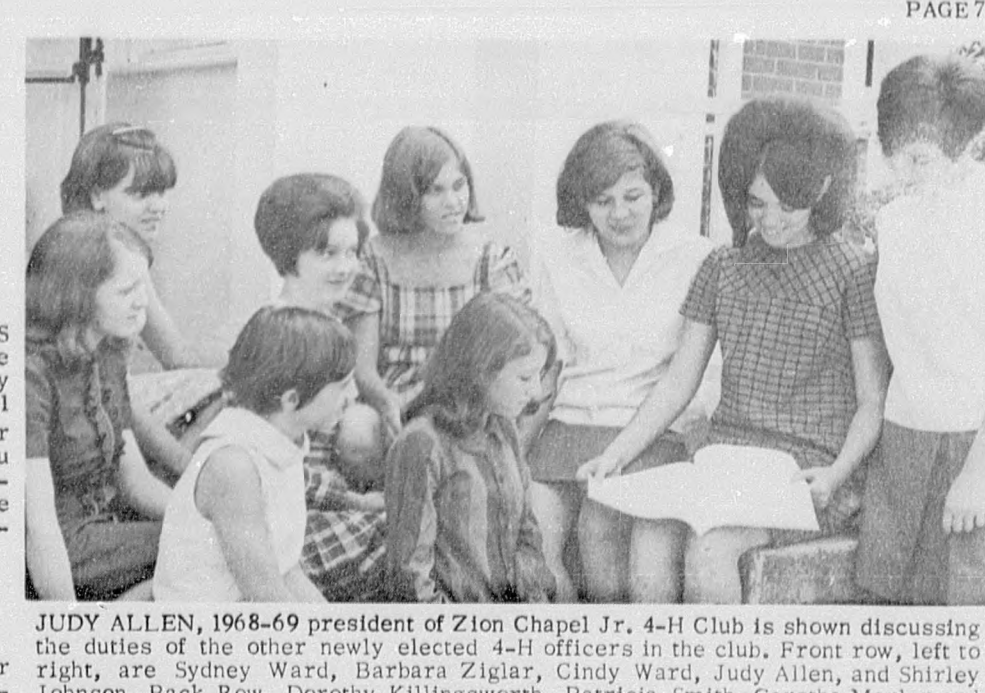

**ONE FEEDS 42**  
It is estimated that the average American farmer produces enough food and fiber for 42 persons.

**AGRICULTURE GRADUATES**  
There is a big need for thousands of additional agriculture graduates each year. We are not graduating one-fourth enough agriculture graduates at Auburn. For those who are interested in the state extension and there are excellent opportunities. For further information, contact any of us at the County Extension Office or your school vocational agriculture teacher or any of the several other representatives of agriculture in Coffee County.

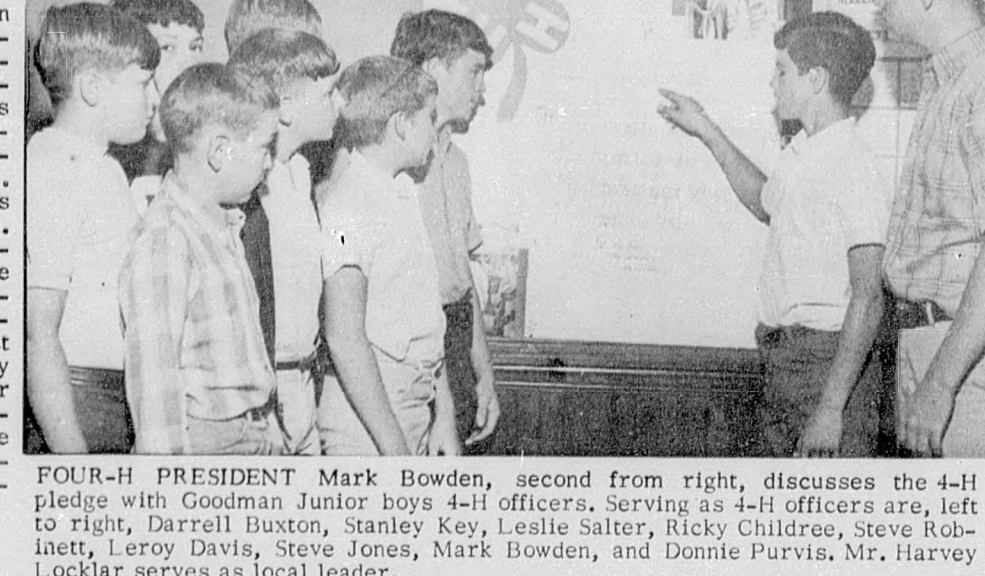

**FIRE LANCES**  
This year's ASOS program will include payments for constructing fire lanes the same as in 1968. A lot of folks are realizing the value of well-constructed fire lanes. In fact, we have some people who have large acreages of fire lanes taking out one row of pines in order to provide a roadway and also a fire lane. These extremely dry weeks are emphasizing the need to protect our trees. For financial help on constructing fire lanes, contact the ASOS office in New Brockton.

**FOREST FIRES**  
These extremely dry days, the possibility of extremely damaging forest fires in Coffee County is always with us. In fighting forest fires, it is a lot better to be over-prepared than under-prepared. And, of course, the best way to control fires is to prevent them. Fires are the result of a chemical process that occurs when three essential elements are present and these are fuel, heat and oxygen. If any of these three essential elements is removed, the fire will go out. All principles of fire fighting are based on this fact. There is no other way to extinguish a fire.

Keep this in mind. Fuel is removed by building a fire lane. Heat is reduced by spraying with water or spreading burning material. Oxygen is removed by smothering the fire or by drowning it with water. Let's be extremely careful with fires.

JUDY ALLEN, 1968-69 president of Zion Chapel Jr. 4-H Club is shown discussing the duties of the other newly elected 4-H officers in the club. Front row, left to right, are Sydney Ward, Barbara Ziglar, Cindy Ward, Judy Allen, and Shirley Johnson. Back row, Dorothy Killingsworth, Patricia Smith, Geronda Marler and Gail Brantham.

FOUR-H PRESIDENT Mark Bowden, second from right, discusses the 4-H pledge with Goodman Junior boys 4-H officers. Serving as 4-H officers are, left to right, Darrrell Buxton, Stanley Key, Leslie Salter, Ricky Childree, Steve Robnett, Leroy Davis, Steve Jones, Mark Bowden, and Donnie Purvis. Mr. Harvey Locklear serves as local leader.

Dureau at Mobile on November 18. Coffee County Coffee County. (1) Phosphorus and potassium are recommended for legumes. (2) Fertilizer is recommended for late summer or fall. (3) Fertilizer is recommended for fall and winter crops such as small grains and tall fescue. (4) If a small grain crop is planted in the fall, it should be followed by peanuts in the spring. It is recommended that the fertilizer for the spring planted peanuts be applied to the small grain crop in the fall.

**SOIL TESTING**  
I can't over emphasize the importance of soil testing for crops to be planted next year. I want to stress, too, the value of fertilizing legumes in advance. For the best way of applying fertilizer in Coffee County, plant peanuts in 1970 and some plant nutrients, especially nitrogen, may be sent a sample in now on lost through leaching. There are conditions, however, under which fall fertilization is recommended for peanuts in 1970.

**FALL FERTILIZATION**  
Applying fertilizer in the fall for spring planted crops is not in general the best way of applying fertilizer in Coffee County. For the best way of applying fertilizer in Coffee County, plant peanuts in 1970 and some plant nutrients, especially nitrogen, may be sent a sample in now on lost through leaching. There are conditions, however, under which fall fertilization is recommended for peanuts in 1970.

**HOG PROMOTION**  
G. B. Phillips, the coordinator of the Marketing Program of the Alabama Farm Bureau, wrote a few days ago and outlined a program which will be presented at the annual meeting of the Farm Bureau.

**COFFEE CON**

## Social Security Paid To Disabled Under 31

Here is some good news for those of you disabled before age 31. You may be eligible for a social security check even though you have not worked much under social security.

A recent change in the social security law has reduced the amount of work you need to be eligible for a disability check. Under the old law, you needed 5 years of work out of the 10 right before you became disabled. Under this new law, if you become disabled between the ages of 24 and 31, you will need to have worked one-half the time between age 21 and the date you became disabled. If you are disabled before age 24, you will need 1 1/2 years work out of the 3 year period right before you became disabled.

If you have filed a disability claim in the past and you were turned down because you did not have enough work, you should contact your social security office and ask about this new provision.

The first month benefits can be made under the new law is February 1969. However, don't delay filing a claim. Contact your social security office at 100 West Troy Street, Dothan, Alabama. The phone number is 794-3101. The office is open from 8:45 a.m. to 5:00 p.m., Monday through Thursday and from 8:45 a.m. to 7:00 p.m. on Friday.

## Mr. And Mrs. University Adopts Limited System

Allen Return From Tour

Mr. and Mrs. Ira Allen of Route 1, New Brockton, have returned from a tour of Greece, Turkey and the Greek Islands.

The Allens were among 128 employees and guests of Field Enterprises Educational Corporation who sailed from Athens October 23.

Most of those in the party were awarded the expense-paid trip for excellence in selling. Also in the group were Sir Edmund Hillary, conqueror of Mount Everest and Lady Hillary.

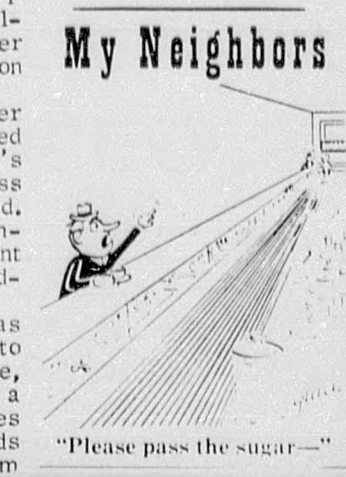

Acting on the recommendations of a joint faculty, administration, and student study group, which included Mr. Edward Still and Mr. Donald Siegelman of the Student Government Association, the University of Alabama has adopted a limited pass-fail grading system. The opportunity to elect courses under the new system will be made available February, 1969.

The pass-fail plan, similar to the Harvard pattern, will enable any upperclass undergraduate with a grade point average of 1.5 or over to enroll in up to a maximum of four elective courses for which he may receive simply a grade of P (pass) or a grade of F (fail). Only once course per semester may be taken on a pass-fail basis.

The courses taken under this system will not be used in computing a student's grade point average unless a failing grade is assigned. The successfully completed courses will count toward the student's graduation requirements.

The pass-fail option was adopted, according to President Frank A. Rose, to "give our students a broader choice of courses outside their major fields of study. The new system

provides additional educational flexibility and initiative for our students as well as increases our students' responsibilities to choose courses that will contribute to their total academic development."

## VA To Mail Questionnaires With Checks

Annual income questionnaires in the form of IBM punch cards were sent to veterans, widows and dependent parents along with the Veterans Administration checks which they received the first of November. Walter C. Head, Jr., director of the Alabama Department of Veterans Affairs, said these questionnaire forms were sent only to veterans and widows receiving pension, and those dependent parents receiving compensation.

In addition to the check and the questionnaire, the Veterans Administration enclosed a window envelope. It is most important in that envelope, since the questionnaire has the address of the Veterans Administration office which will process and handle that questionnaire.

Director Head reminded these individuals that their questionnaire must be completed and returned to the Veterans Administration before January 15, 1969, or payments will be stopped. In previous years the deadline was January 31.

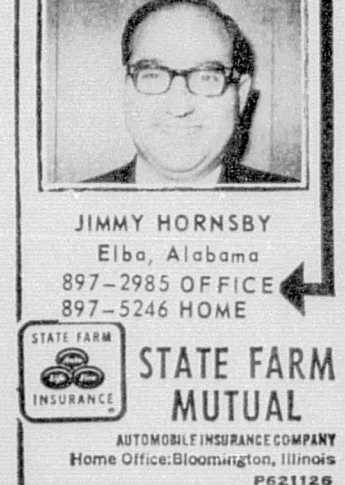

Maxwell Reeves, Veterans Service Officer for Coffee County, whose office is located in the Courthouse Annex in Elba, urges all veterans and their dependents to bring their cards and envelopes to his office, so that he may assist them with proper completion of the forms.

Reeves said that it is absolutely essential that the card and envelope received with the check be used in the return of the questionnaire.

I may save you up to \$125 (or more) financing and insuring your next car

## Wreck Kills One Thursday

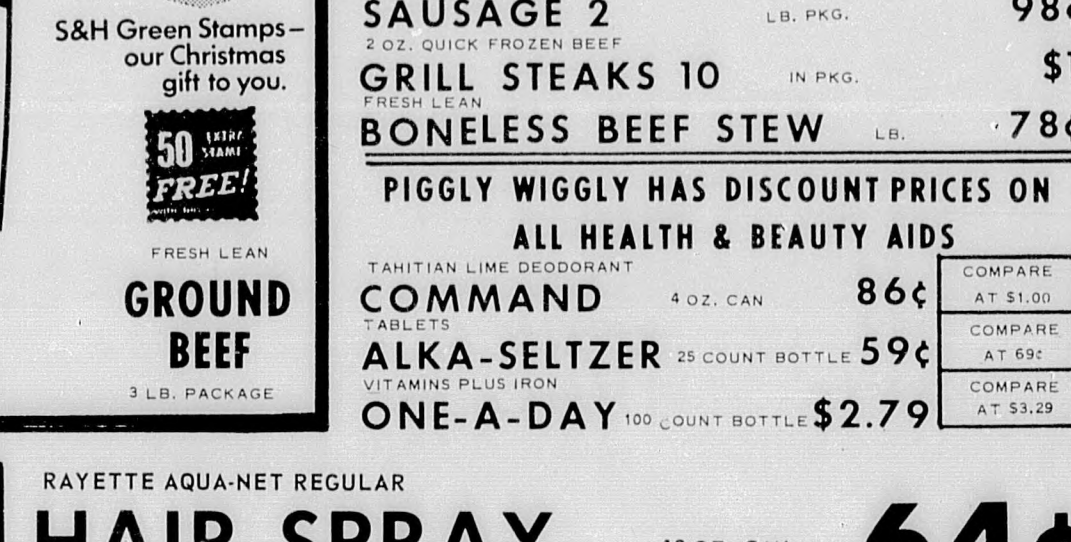

A soldier was killed and three others were injured - one seriously - when an Army fire truck overturned near Inola last Thursday night.

Pvt. James E. Drummond, 19, Gallipolis, Ohio was killed, according to the Alabama Highway Patrol.

He was the son of Mr. and Mrs. Charles Drummond, P.O. Box 18, Slouss City, Iowa, suffered serious head injuries.

Two others were reported in satisfactory condition at Lyster Army Hospital. They are SP4 Emmett Amos and Pvt. Richard Apodaco, both 18.

The accident happened about five miles from Elba as the truck was returning to Ft. Rucker about 5 p.m. from Skilly Stage Field where it had been stationed for the day. Trooper Dan Morris investigated.

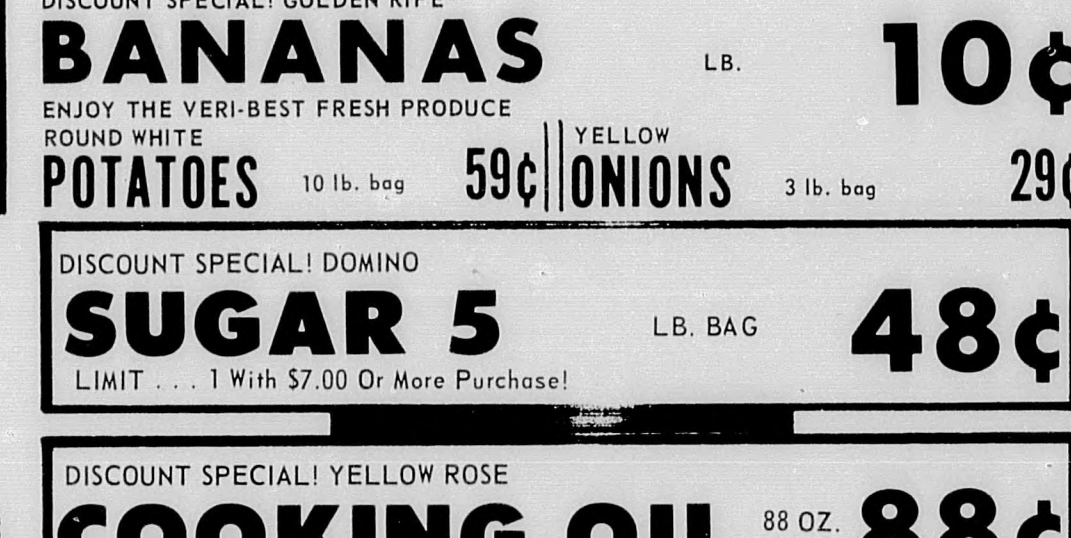

## Troy Beats Elba 28-14 Friday

The Troy Trojans scored two quick touchdowns early in the first quarter and headed into the third quarter to destroy Elba's chances.

Troy scored the first of going to the state playoffs. The Trojans appeared in the first quarter and headed into the third quarter to destroy Elba's chances.

Troy scored the first of going to the state playoffs. The Trojans appeared in the first quarter and headed into the third quarter to destroy Elba's chances.

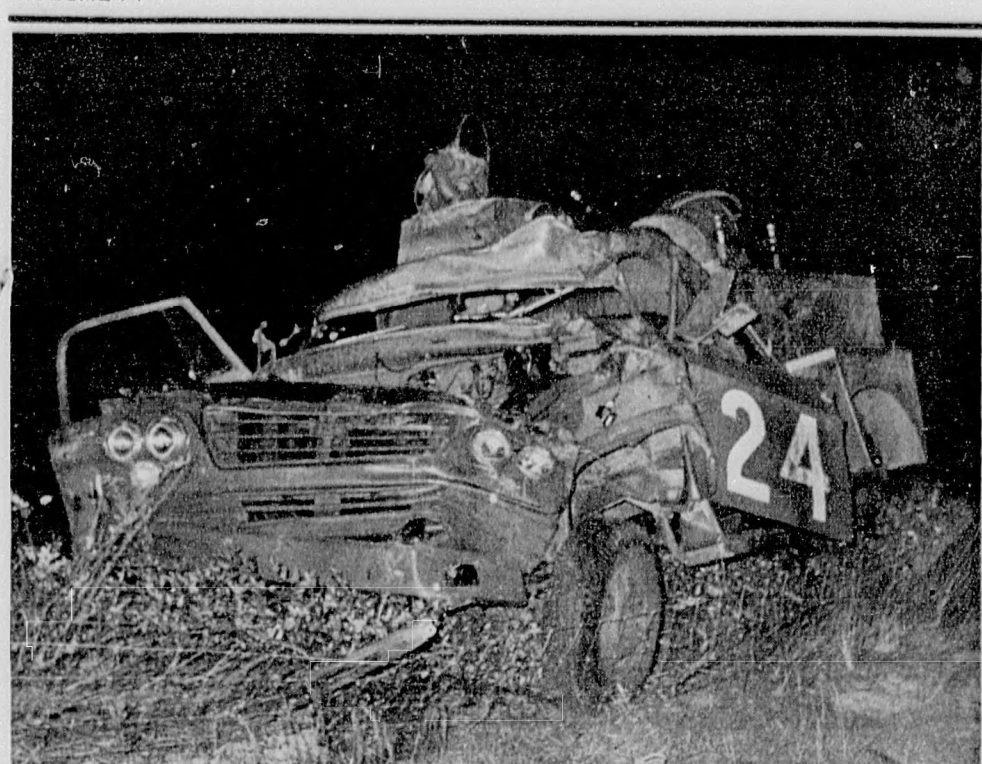

KATHY BOWERS... daughter of Mr. and Mrs. Lawrence Bowers, was selected as the Elba Beauty in activities last Wednesday at Elba High School. Kathy is a junior at Elba High School.

## Mail Early Is The Word From Cooper

Postmaster Robert Cooper announced some deadlines and also some advice to Christmas mailers.

According to Cooper, "more mail than ever before will be delivered between now and the holidays." He urges all mailers to start planning their holiday mailings now and to use an "Early Bird" mailer.

Christmas mail for servicemen in foreign countries should have been mailed by November 9th. If it was to be surface mail, packages may be mailed to arrive by Christmas by SAM until November 23 and by PAL until November 30. Airmail should be mailed before December 11th.

Cooper said that the postal service can handle the unusually heavy load of mail expected this year if the public will give a hand by depositing their cards and packages into the mail a bit earlier than usual and by using zip codes. Packages should be wrapped well, without rattles. Addresses should be legible.

New postal laws have eliminated the lower rate for greeting cards weighing an ounce or less. Therefore, all "regular" Christmas Cards will be mailed at the six cent rate this year.

## Peoples Bank To Open New Brockton Office

The Peoples Bank has received permission from the FDIC to open a branch bank in New Brockton according to a telegram received Tuesday by President James S. Rainey, Jr., from William M. Morony, assistant to the Board of Directors of the FDIC.

Rainey could not give any other details at present, but said opening dates would be released as soon as work was completed on the proposed building in New Brockton.

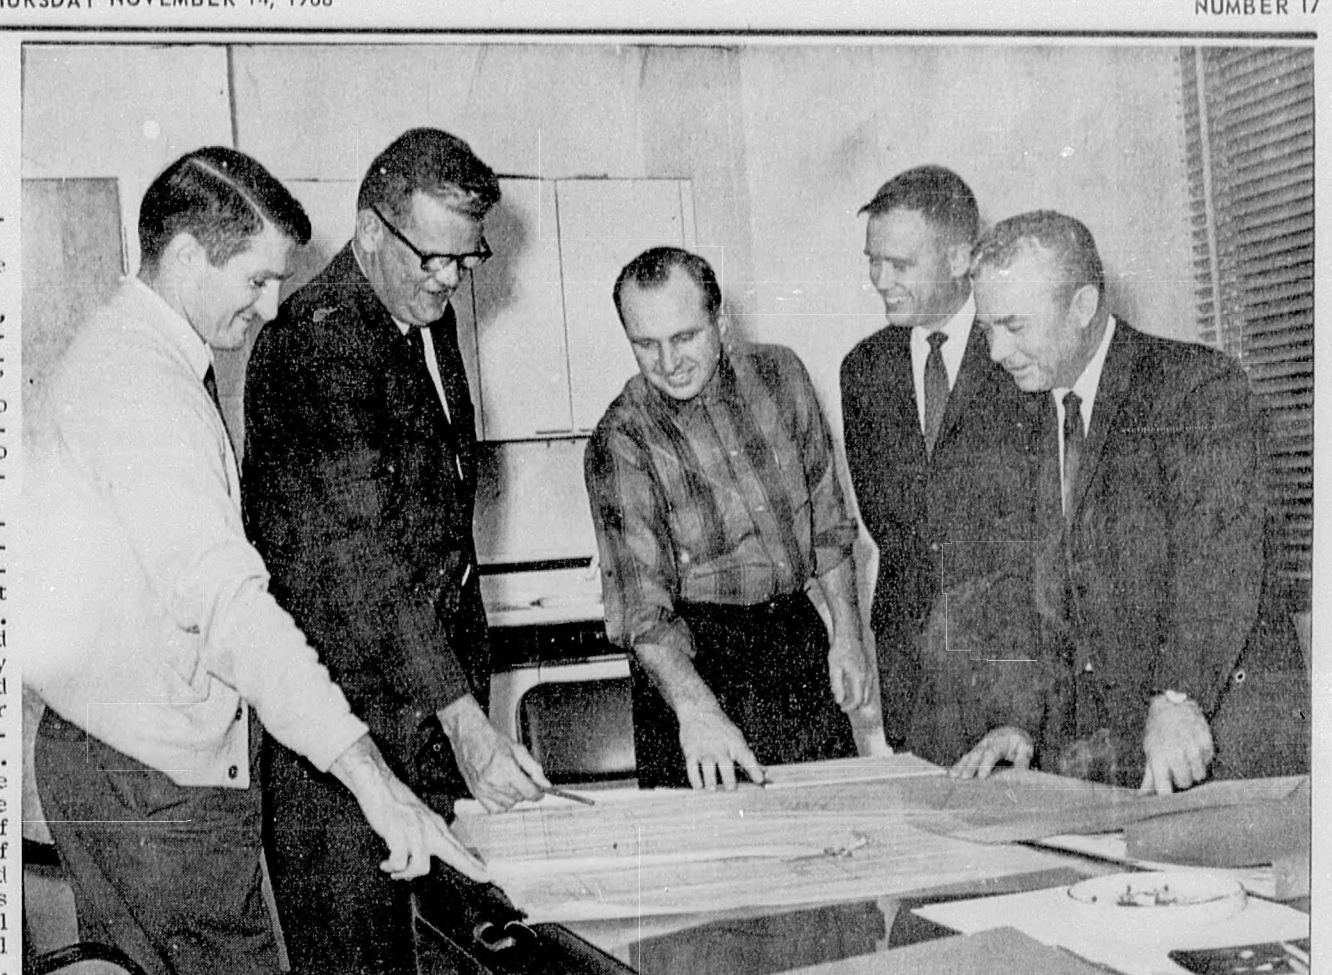

## Deadline Is Near For Buying Tags

The time is almost up for purchasing your 1969 car and truck tags without paying a penalty. Friday, November 15th, is the deadline and a close check at the Probate Office on Tuesday afternoon disclosed that there were almost 1,000 persons who had not purchased their new tags.

This will undoubtedly cause another session of standing in line on the last two days to keep from paying the penalty.

Elba managed to block one Troy punt and one extra point attempt. The extra point block was nullified by a penalty at the line of scrimmage.

Elba has now completed the 1968 football season with an impressive 8-2 record, losing only to Sam Houston and Troy. This also gives Elba head coach, Leon Akins, a 16-4 record this far in his head coaching career.

## Wallace Carries Coffee County With 84% Of Vote

In the general election held November 5th, former Governor George Wallace carried Coffee County with an overwhelming 84% of the votes. Vice President Hubert Humphrey ran a distant second and now president-elect Richard Nixon trailed in third place with less than 700 votes.

Congressman George Andrews had no trouble winning re-election, as he polled 9099, Wilbur Johnston polled 187 and Ralph Nixon trailed in third place with less than 700 votes.

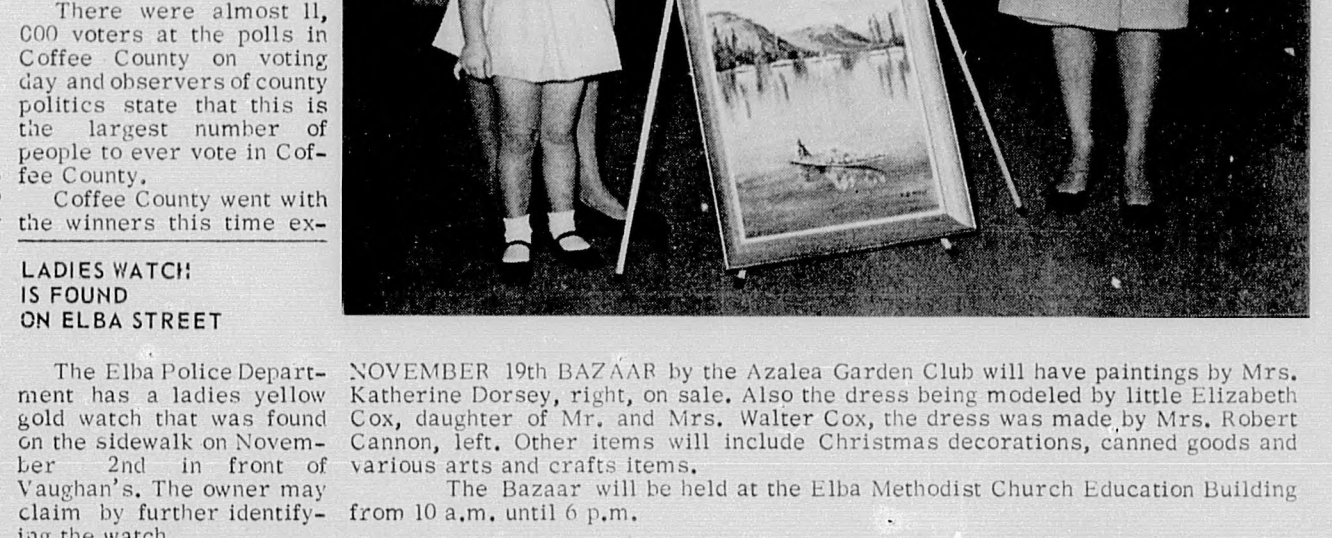

## Ladies Watch Is Found On Elba Street

The Elba Police Department has a ladies yellow gold watch that was found on the sidewalk on November 2nd in front of Vaughan's. The owner may claim by further identifying the watch.

There were almost 11,000 voters at the polls in Coffee County on voting day and observers of county politics state that this is the largest number of people to ever vote in Coffee County.

Coffee County went with the winners this time except of course in the presidential election where the county supported Wallace and Democratic Party over both the Republican nominees.

## 32 ELBA HIGH GIRLS COMPETE FOR ELBALA

NOVEMBER 19th BAZAAR by the Azalea Garden Club will have paintings by Mrs. Katherine Dorsey, right, on sale. Also the dress being modeled by Little Elizabeth Cox, daughter of Mr. and Mrs. Walter Cox, the dress was made by Mrs. Robert Cannon, left. Other items will include Christmas decorations, canned goods and various arts and crafts items.

The Bazaar will be held at the Elba Methodist Church Education Building from 10 a.m. until 6 p.m.
